

QuikMetrix

The fastest, easiest, most cost effective KPI Dashboard ever.

Meta-Data Driven Means No Coding and No Data Warehouse Required.

QuikMetrix is a truly configurable portal template that delivers a fully functional business intelligence application for display, charting and drilling of metrics, measures and key performance indicators (KPI's) in a matter of weeks without requiring any application development . . . and without breaking the bank.

We aggressively manage performance improvement with scorecards across our institution. Using the QuikMetrix Portal template, we were able to modernize our key Scorecards containing well over 600 operational measures in just over 2 months. The productivity of the template really allowed us to fast track these critical deliverables."

Bruce K. Manager, Critical Analysis

What's in the Box?

- ✓ QuikMetrix BI Portal Template
- ✓ Installation, Configuration & Deployment
- ✓ Project Management
- ✓ Sample Metrics Catalog
- ✓ InfoApps Launch Page
- ✓ KPI Summary Tab per InfoApp
- ✓ Mentoring Pack
- ✓ Multiple Charting Tabs per InfoApp
- ✓ PDF & Excel Export for all Content
- ✓ Charts with Built-in Drill Links
- ✓ Personalization & Memory for Each User
- ✓ Responsive Design
- ✓ Unlimited Info Apps & Metrics

How Does the Program Work?

- QuikMetrix is delivered in a fixed 4 to 6 week project.
- Deploy up to 40 metrics across 1 or 2 InfoApps during the short engagement.
- Mentoring is provided so additional measures and InfoApps can be created and deployed after the implementation team leaves.

How Much Does it Cost?

- QuikMetrix is surprisingly affordable and is specifically priced to remove the "It costs too much" objection common with BI portal solutions.
- Both on-premises or cloud deployment models are supported.
- Purchase or subscription licensing is available.

Are There any Limitations?

Not really. The QuikMetric application template does not pose a limitation on the number of InfoApps and measures that that can be deployed.

Who Performs the Implementation?

QuikMetric is implemented by RDC Business Solutions (www.rdcbiz.com). RDC is based in Yardley PA, and delivers business intelligence and data warehousing solutions across the United States.

Is There Extra Value in Using the Template?

Yes there is. Each QuikMetric client may participate in a "collaborative community" of application users:

- ✓ Enhancement suggestions can be emailed to the QuikMetric team. Selected features are worked into the application with each new client implementation.
- ✓ The QuikMetric application gets better and better with each client's input!
- ✓ New versions of the application are posted to the QuikMetric cloud after each client install.
- ✓ Download from the cloud to upgrade your QuikMetric install, or contract IBI/RDC to perform the upgrade.
- ✓ One-year subscription to the QuikMetric cloud for application downloads included with purchase (fee-based subscription required thereafter).
